🎓 Education

Bsc in CSE

International Islamic University
Chittagong

04/2018 - 12/2022 | Chittagong, BD

HSC

Chattagram Biggan College

07/2015 - 07/2017 | Chittagong, BD

Dakhil

Montoli Rahmania Fazil Madrasah

01/2005 - 06/2015 | Comilla, BD

🔧 Technical Skills

Programming Languages

C, C++, Javascript, Typescript, Python

Database

MongoDB, MySQL, Firebase

Project Management

Git, Github

Framework

React, NextJS, Angular, NodeJS, FastAPI

Others

WebdriverIO, Langchain

</> Problem Solving

Codeforces ☑ | Leetcode ☑ |
Hackerrank ☑ | Atcoder ☑ | UVA ☑ |
Beecrowd ☑

🏆 Contests

1. 7th position at ☑

IIUC CSE Fest 2019 Intra University
Programming Contest (Junior)

2. 6th position at ☑

IIUC Intra Contest Spring 2019
(Junior)

3. 341th (among 1324 teams) at ☑

ICPC Dhaka Regional 2020 Online
Preliminary Contest

• Team Name: **IIUC_whatever**

💼 Work Experience

Selise Digital Platforms

Software Engineer

12/2024 - present | Dhaka, Bangladesh

Risk & Incident Management System (Healthcare)

- Contributing to the migration of enterprise frontend modules from Angular to **React**, implementing reusable React components and supporting the modernization of the application's frontend architecture.
- Developing and maintaining complex frontend features using Angular, **TypeScript**, RxJS, and Angular Material throughout the migration process.

Recycling Management Platform

- Developing a multi-role frontend with **MUI**, using **React Hook Form**, **TanStack Query**, and **Zustand** for responsive, role-based workflows.

Railway Inspection Solution

- Built **form-intensive UIs** with **React Hook Form**, **Redux**, and **TanStack Query**.
- Integrated **CanvasJS** for interactive charts and **PDF report generation**.
- Implemented **full end-to-end test automation** using **WebdriverIO**, ensuring high reliability and regression safety.

Associate Software Engineer

09/2023 - 11/2024 | Dhaka, Bangladesh

Developed an **AI-powered RAG (Retrieval-Augmented Generation)** chat application enabling users to interact with their personal or official PDFs.

- Built a scalable document Q&A solution using **FastAPI**, **LangChain**, **Qdrant**, **Azure OpenAI**, and **AWS Bedrock**.
- Implemented **WebSocket-based** real-time communication with the **Angular** frontend.

Software Engineer Intern

03/2023 - 08/2023 | Dhaka, Bangladesh

Led end-to-end test automation initiatives using WebdriverIO

- Mentored QA engineers on **WebdriverIO** automation practices.
- Developed core UI features for an internal **Next.js** application with reusable, scalable components.
